

**AUTHORIZED FEDERAL SUPPLY SERVICE
INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY
EQUIPMENT, SOFTWARE AND SERVICES**

SIN 132-32 – TERM SOFTWARE LICENSES

Includes operating system software, application software, EDI translation and mapping software, enabled E-Mail message based products, Internet software, database management programs, and other software.

SIN 132-33 - PERPETUAL SOFTWARE LICENSES

Includes operating system software, application software, EDI translation and mapping software, enabled E-mail message based products, Internet software, database management programs, and other software.

SIN 132-34 - MAINTENANCE OF SOFTWARE

1. Software Maintenance as a Product. Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self diagnostics. Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service.
2. Software Maintenance as a Service. Software maintenance as a service creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance as a service includes person-to-person communications regardless of the medium used to communicate: telephone support, on-line technical support, customized support, and/or technical expertise which are charged commercially. Software maintenance as a service is billed arrears in accordance with 31 U.S.C. 3324.

SIN 132-50 - TRAINING

Includes all modalities of training

SIN 132-51 - INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES

FPDS Code D302	IT Systems Development Services
FPDS Code D306	IT Systems Analysis Services
FPDS Code D307	Automated Information Systems Design and Integration Services
FPDS Code D308	Programming Services, Millennium Conversion Services (Y2K)
FPDS Code D311	IT Data Conversion Services
FPDS Code D316	IT Network Management Services

Includes resources and facilities management, database planning and design, systems analysis and design, network services, programming, millennium conversion services, conversion and implementation support, network services project management, data/records management, subscriptions/publications (electronic media), and other services.

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

International Software Systems Inc.

**INFORMATION FOR ORDERING ACTIVITIES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS**

Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!TM on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!TM and the Federal Supply Service Home Page (www.fss.gsa.gov) contains information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. Geographic Scope of Contract:

Domestic delivery is delivery within the 48 contiguous states, Alaska, Hawaii, Puerto Rico, Washington, DC, and U.S. Territories. Domestic delivery also includes a port or consolidation point, within the aforementioned areas, for orders received from overseas activities.

Overseas delivery is delivery to points outside of the 48 contiguous states, Washington, DC, Alaska, Hawaii, Puerto Rico, and U.S. Territories.

Offerors are requested to check one of the following boxes:

- The Geographic Scope of Contract will be domestic and overseas delivery.
- The Geographic Scope of Contract will be overseas delivery only.
- The Geographic Scope of Contract will be domestic delivery only.

2. Contractor's Ordering Address and Payment Information:

International Software Systems, Inc.
7337 Hanover Parkway Suite A
Greenbelt MD 20770
Phone: 301-982-9700
Fax: 301-982-0500

Contractors are required to accept credit cards for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Credit cards will be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering activities to obtain technical and/or ordering assistance:

Phone: 301-982-9700, 301-886-8900

When Authorized Dealers are allowed by the Contractor to bill ordering activities and accept payment, the order and/or payment must be in the name of the Contractor, in care of the Authorized Dealer.

3. Liability for Injury or Damage:

The Contractor shall not be liable for any injury to ordering activity personnel or damage to ordering activity property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. Statistical Data for Government Ordering Office Completion of Standard Form 279:

Block 9: G. Order/Modification Under Federal Schedule
Block 16: Data Universal Numbering System (DUNS) Number: 15-507-5369
Block 30: Type of Contractor - Small Disadvantaged Business
Block 31: Woman-Owned Small Business - NO
Block 36: Contractor's Taxpayer Identification Number (TIN): 52-1915109

4a. CAGE Code: 1MGL7
4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB Destination:

48 contiguous states, and the District of Columbia excluding Alaska, Hawaii and Puerto Rico.

6. Delivery Schedule:

a. Time of Delivery: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
<u>132-32</u>	15 Days
<u>132-33</u>	15 Days
<u>132-34</u>	15 Days
<u>132-50</u>	As negotiated between the Agency and the Contractor
<u>132-51</u>	As negotiated between the Agency and the Contractor

b. Urgent Requirements: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering activity, ordering activities are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering activity, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. Discounts:

Prices shown are NET Prices; Basic Discounts have been deducted.

- a. Prompt Payment: 0 % - Net 30 days from receipt of invoice or date of acceptance, whichever is later.
- b. Government Educational Institutions receive the same discount as the Federal Government agencies

8. Trade Agreements Act of 1979, as amended:

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. Statement Concerning Availability of Export Packing:

None

10. Small Requirements:

The minimum dollar value of orders to be issued is \$ 100.

11. Maximum Order:

(All dollar amounts are exclusive of any discount for prompt payment.)

- a. The Maximum Order value for the following Special Item Numbers (SINs) is \$500,000:

- Special Item Number 132-32 – Term Software Licenses
- Special Item Number 132-33 - Perpetual Software Licenses
- Special Item Number 132-34 – Maintenance of Software
- Special Item Number 132-51 - Information Technology (IT) Professional Services
- Special Item Number 132-52 - Electronic Commerce (EC) Services

- b. The Maximum Order value for the following Special Item Numbers (SINs) is \$25,000:

- Special Item Number 132-50 - Training Courses

12. Use of Federal Supply Service Information Technology Schedule Contracts:

In accordance with FAR 8.404:

Orders placed pursuant to a Multiple Award Schedule (MAS), using the procedures in FAR 8.404, are considered to be issued pursuant to full and open competition. Therefore, when placing orders under Federal Supply Schedules, ordering activities need not seek further competition, synopsise the requirement, make a separate determination of fair and reasonable pricing, or consider small business set-asides in accordance with subpart 19.5. GSA has already determined the prices of items under schedule contracts to be fair and reasonable. By placing an order against a schedule using the procedures outlined below, the ordering activity has concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the ordering activity's needs.

- a. Orders placed at or below the micro-purchase threshold. Ordering activities can place orders at or below the micro-purchase threshold with any Federal Supply Schedule Contractor.
- b. Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold. Orders should be placed with the Schedule Contractor that can provide the supply or service that represents the best value. Before placing an order, ordering activities should consider reasonably available information about the supply or service offered under MAS contracts by using the "GSA Advantage!" on-line shopping service, or by reviewing the catalogs/pricelists of at least three Schedule Contractors and selecting the delivery and other options available under the schedule that meets the ordering activity's needs. In selecting the supply or service representing the best value, the ordering activity may consider--
 - (1) Special features of the supply or service that are required in effective program performance and that are not provided by a comparable supply or service;
 - (2) Trade-in considerations;
 - (3) Probable life of the item selected as compared with that of a comparable item;
 - (4) Warranty considerations;
 - (5) Maintenance availability;
 - (6) Past performance; and
 - (7) Environmental and energy efficiency considerations.
- c. Orders exceeding the maximum order threshold. Each schedule contract has an established maximum order threshold. This threshold represents the point where it is advantageous for the ordering activity to seek a price reduction. In addition to following the procedures in paragraph b, above, and before placing an order that exceeds the maximum order threshold, ordering activities shall--

Review additional Schedule Contractors'

- (1) catalogs/pricelists or use the “GSA Advantage!” on-line shopping service;
- (2) Based upon the initial evaluation, generally seek price reductions from the Schedule Contractor(s) appearing to provide the best value (considering price and other factors); and
- (3) After price reductions have been sought, place the order with the Schedule Contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are not offered, an order may still be placed, if the ordering activity determines that it is appropriate.
 - i. Offer a new lower price for this requirement (the Price Reductions clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations);
 - ii. Offer the lowest price available under the contract; or
 - iii. Decline the order (orders must be returned in accordance with FAR 52.216-19).
- d. Blanket purchase agreements (BPAs). The establishment of Federal Supply Schedule BPAs is permitted when following the ordering procedures in FAR 8.404. All schedule contracts contain BPA provisions. Ordering activities may use BPAs to establish accounts with Contractors to fill recurring requirements. BPAs should address the frequency of ordering and invoicing, discounts, and delivery locations and times.
- e. Price reductions. In addition to the circumstances outlined in paragraph c, above, there may be instances when ordering activities will find it advantageous to request a price reduction. For example, when the ordering activity finds a schedule supply or service elsewhere at a lower price or when a BPA is being established to fill recurring requirements, requesting a price reduction could be advantageous. The potential volume of orders under these agreements, regardless of the size of the individual order, may offer the ordering activity the opportunity to secure greater discounts. Schedule Contractors are not required to pass on to all schedule users a price reduction extended only to an individual ordering activity for a specific order.
- f. Small business. For orders exceeding the micro-purchase threshold, ordering activities should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.
- g. Documentation. Orders should be documented, at a minimum, by identifying the Contractor the item was purchased from, the item purchased, and the amount paid. If an ordering activity requirement, in excess of the micro-purchase threshold, is defined so as to require a particular brand name, product, or feature of a product peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, the ordering activity shall include an explanation in the file as to why the particular brand name, product, or feature is essential to satisfy the ordering activity’s needs.

13. Federal Information Technology/Telecommunication Standards Requirements:

Ordering activities acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering activities, shall be responded to promptly by the Contractor.

13.1 Federal Information Processing Standards Publications (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 Federal Telecommunication Standards (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless

a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. Contractor Tasks / Special Requirements (C-FSS-370) (NOV 2001):

- a. Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.
- b. Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. The Industrial Funding Fee does NOT apply to travel and per diem charges.
- c. Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.
- d. Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.
- e. Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.
- f. Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.
- g. Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.
- h. Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.
- i. Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.
- j. Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

15. Contract Administration for Ordering Activities:

Any ordering activity, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the ordering activity's convenience, and (m) Termination for Cause (See C.1.)

16. GSA Advantage! :

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: Internet Explorer, Firefox, Chrome, Netscape). The Internet address is <http://www.fss.gsa.gov/>.

17. Purchase of Open Market Items:

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract.

For administrative convenience, an ordering activity contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if-**

- (1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));
- (2) The ordering activity contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;
- (3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and
- (4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. Contractor Commitments, Warranties and Representations:

- a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:
 - (1) Time of delivery/installation quotations for individual orders;
 - (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
 - (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.
- b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. Overseas Activities:

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

None

Upon request of the Contractor, the ordering activity may provide the Contractor with logistics support, as available, in accordance with all applicable ordering activity regulations. Such ordering activity support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. Blanket Purchase Agreements (BPAs):

Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as "...a simplified method of filling anticipated repetitive needs for supplies or services by establishing 'charge accounts' with qualified sources of supply." The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c)(3), which reads, in part, as follows:

"BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract."

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up "accounts" with Schedule Contractors to fill recurring requirements. These accounts establish a period for the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful with the new Maximum Order feature. See the Suggested Format, contained in this Schedule Pricelist, for customers to consider when using this purchasing tool.

21. Contractor Team Arrangements:

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Industrial Funding Fee and Sales Reporting, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. Installation, Deinstallation, Reinstallation:

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act apply.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, de-installation, and reinstallation services under SIN 132-8.

23. Section 508 Compliance:

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

www.issi-software.com

The EIT standard can be found at: www.Section508.gov/.

24. Prime Contractor Ordering from Federal Supply Schedules:

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order:

- a. A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and
- b. The following statement:
- c. This order is placed under written authorization from 12/15/2014 – 12/17/2019. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

25. Insurance—Work on a Government Installation (JAN 1997) (FAR 52.228-5):

- a. The Contractor shall, at its own expense, provide and maintain during the entire performance of this contract, at least the kinds and minimum amounts of insurance required in the Schedule or elsewhere in the contract.
- b. Before commencing work under this contract, the Contractor shall notify the Contracting Officer in writing that the required insurance has been obtained. The policies evidencing required insurance shall contain an endorsement to the effect that any cancellation or any material change adversely affecting the Government's interest shall not be effective—
 - (1) For such period as the laws of the State in which this contract is to be performed prescribe; or
 - (2) Until 30 days after the insurer or the Contractor gives written notice to the Contracting Officer, whichever period is longer.
- c. The Contractor shall insert the substance of this clause, including this paragraph (c), in subcontracts under this contract that require work on a Government installation and shall require subcontractors to provide and maintain the insurance required in the Schedule or elsewhere in the contract. The Contractor shall maintain a copy of all subcontractors' proofs of required insurance, and shall make copies available to the Contracting Officer upon request.

26. Software Interoperability:

Offerors are encouraged to identify within their software items any component interfaces that support open standard interoperability. An item's interface may be identified as inter-operable on the basis of participation in a Government agency-sponsored program or in an independent organization program. Interfaces may be identified by reference to an interface registered in the component registry located at <http://www.core.gov>.

27. Advance Payments:

A payment under this contract to provide a service or deliver an article for the United States Government may not be more than the value of the service already provided or the article already delivered. Advance or pre-payment is not authorized or allowed under this contract.(31 U.S.C. 3324)

**TERMS AND CONDITIONS APPLICABLE TO
PERPETUAL SOFTWARE LICENSES (SPECIAL ITEM NUMBER 132-33) AND
MAINTENANCE (SPECIAL ITEM NUMBER 132-34) OF GENERAL PURPOSE
COMMERCIAL INFORMATION TECHNOLOGY SOFTWARE**

1. Inspection/Acceptance:

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. End User License Agreements (EULA) / Terms of Service (TOS) Agreement Requirements:

The Contractor shall provide all Enterprise User License Agreements in an editable format.

3. Guarantee/Warranty

- a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract.
- b. 90 days warranty and other warranties are negotiated when a specific sale takes place.
- c. Manufacturer warrants that all unmodified Software will substantially conform to Manufacturer's published specifications(as set forth in the user documentation) prevailing at shipment for a period of one-hundred twenty (120) days from shipment of the initial release provided. Manufacturer does not warrant the Software will be error free or that all errors will be remedied. Manufacturer s and/or its licensors' entire liability and Customer's exclusive remedy under this warranty shall be for Manufacturer to make reasonable efforts to remedy any such material non-conformance reported in writing within the warranty period. In the event of failure of such remedy after reasonable efforts, Manufacturer may provide a refund of the license fees paid for the Software and terminate this Agreement. NEITHER IBM NOR ANY OF ITS LICENSORS MAKES ANY OTHER REPRESENTATION OR WARRANTY REGARDING THE SOFTWARE, INCLUDING EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.
- d. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.
- e. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

4. Technical Services:

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number 877-808-4774 for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available from 8 A.M to 5 P.M (Eastern)

5. Software Maintenance:

- a. Software maintenance service shall include the following:
Periodic Updates, hot fixes, newsletters of upcoming changes
- b. Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

6. Periods of Perpetual Software Licenses (132-33) and Maintenance (132-34):

- a. The Contractor shall honor orders for periods for the duration of the contract period or a lesser period of time.
- b. Maintenance may be discontinued by the ordering activity on thirty (30) calendar days written notice to the Contractor.
- c. Annual Funding. When annually appropriated funds are cited on an order for maintenance, the period of the maintenance shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of maintenance orders citing the new appropriation shall be required, if the maintenance is to be continued during any remainder of the contract period.
- d. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
- e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the maintenance is to be terminated at that time. Orders for the continuation of maintenance will be required if the maintenance is to be continued during the subsequent period.

7. Utilization Limitations (132-33, AND 132-34):

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
- b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:
 - (1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.
 - (2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.
 - (3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.
 - (4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of disaster recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer

is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

- (5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

8. Software Conversions (132-33):

Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system, or from one computer system to another. Under a perpetual license (132-33), the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version.

9. Descriptions and Equipment Compatibility:

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

10. Right-To-Copy Pricing:

The Contractor shall insert the discounted pricing for right-to-copy licenses.

**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF
TRAINING COURSES FOR GENERAL PURPOSE COMMERCIAL
INFORMATION TECHNOLOGY EQUIPMENT AND SOFTWARE
(SPECIAL ITEM NUMBER 132-50)**

1. Scope:

- a. The Contractor shall provide training courses normally available to commercial customers, which will permit ordering activity users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.
- b. The Contractor shall provide training at the Contractor's facility and/or at the ordering activity's location, as agreed to by the Contractor and the ordering activity.

2. Order:

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. Time of Delivery:

The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the ordering activity.

4. Cancellation and Rescheduling:

- a. The ordering activity will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the ordering activity to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the ordering activity will modify its original training order to specify the time and date of the rescheduled training class.
- b. In the event the ordering activity fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the ordering activity will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the ordering activity to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.
- c. The ordering activity reserves the right to substitute one student for another up to the first day of class.
- d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the ordering activity, the Contractor must notify the ordering activity at least seventy-two (72) hours before the scheduled training date.

5. Follow-Up Support:

The Contractor agrees to provide each student with unlimited telephone support for a period of one (1) year from the completion of the training course. During this period, the student may contact the Contractor's instructors for refresher assistance and answers to related course curriculum questions.

6. Price for Training:

The price that the ordering activity will be charged will be the ordering activity training price in effect at the time of order placement, or the ordering activity price in effect at the time the training course is conducted, whichever is less.

7. Invoices and Payment:

Invoices for training shall be submitted by the Contractor after ordering activity completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

8. Format and Content of Training:

- a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.
- b. ****If applicable**** For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.
- c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.
- d. The Contractor shall provide the following information for each training course offered:
 - (1) The course title and a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);
 - (2) The length of the course;
 - (3) Mandatory and desirable prerequisites for student enrollment;
 - (4) The minimum and maximum number of students per class;
 - (5) The locations where the course is offered;
 - (6) Class schedules; and
 - (7) Price (per student, per class (if applicable)).
- e. For those courses conducted at the ordering activity's location, instructor travel charges (if applicable), including mileage and daily living expenses, must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts.

9. "No Charge" Training:

The Contractor shall describe any training provided with equipment and/or software provided under this contract, free of charge, in the space provided below.

None

**TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT)
PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51) AND
ELECTRONIC COMMERCE (EC) SERVICES (SPECIAL ITEM NUMBER 132-52)**

1. Scope:

- a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services and Special Item Number 132-52 Electronic Commerce Services apply exclusively to IT/EC Services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. Performance Incentives:

- a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
- b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. Ordering Procedures for Services (Requiring a Statement of Work)(G-FCI-920)(MAR 2003):

FAR 8.402 contemplates that GSA may occasionally find it necessary to establish special ordering procedures for individual Federal Supply Schedules or for some Special Item Numbers (SINs) within a Schedule. GSA has established special ordering procedures for services that require a Statement of Work. These special ordering procedures take precedence over the procedures in FAR 8.404 (b)(2) through (b)(3).

When ordering services over \$100,000, Department of Defense (DOD) ordering offices and non-DOD agencies placing orders on behalf of the DOD must follow the policies and procedures in the Defense Federal Acquisition Regulation Supplement (DFARS) 208.404-70 – Additional ordering procedures for services. When DFARS 208.404-70 is applicable and there is a conflict between the ordering procedures contained in this clause and the additional ordering procedures for services in DFARS 208.404-70, the DFARS procedures take precedence. GSA has determined that the prices for services contained in the contractor's price list applicable to this Schedule are fair and reasonable. However, the ordering activity using this contract is responsible for considering the level of effort and mix of labor proposed to perform a specific task being ordered and for making a determination that the total firm-fixed price or ceiling price is fair and reasonable.

(a) When ordering services, ordering activities shall—

(1) Prepare a Request (Request for Quote or other communication tool):

- (i) A statement of work (a performance-based statement of work is preferred) that outlines, at a minimum, the work to be performed, location of work, period of performance, deliverable schedule, applicable standards, acceptance criteria, and any special requirements (i.e., security clearances, travel, special knowledge, etc.) should be prepared.
- (ii) The request should include the statement of work and request the contractors to submit either a firm-fixed price or a ceiling price to provide the services outlined in the statement of work. A firm-fixed price order shall be requested, unless the ordering activity makes a determination that it is not possible at the time of placing the order to estimate accurately the extent or duration of the work or to anticipate cost with any reasonable degree of confidence. When such a determination is made, a labor hour or time-and-materials proposal may be requested. The firm-fixed price shall

be based on the rates in the schedule contract and shall consider the mix of labor categories and level of effort required to perform the services described in the statement of work. The firm-fixed price of the order should also include any travel costs or other incidental costs related to performance of the services ordered, unless the order provides for reimbursement of travel costs at the rates provided in the Federal Travel or Joint Travel Regulations. A ceiling price must be established for labor-hour and time-and-materials orders.

- (iii) The request may ask the contractors, if necessary or appropriate, to submit a project plan for performing the task, and information on the contractor's experience and/or past performance performing similar tasks.
- (iv) The request shall notify the contractors what basis will be used for selecting the contractor to receive the order. The notice shall include the basis for determining whether the contractors are technically qualified and provide an explanation regarding the intended use of any experience and/or past performance information in determining technical qualification of responses. If consideration will be limited to schedule contractors who are small business concerns as permitted by paragraph (2) below, the request shall notify the contractors that will be the case.

(2) Transmit the Request to Contractors:

Based upon an initial evaluation of catalogs and price lists, the ordering activity should identify the contractors that appear to offer the best value (considering the scope of services offered, pricing and other factors such as contractors' locations, as appropriate) and transmit the request as follows:

NOTE: When buying IT professional services under SIN 132—51 ONLY, the ordering office, at its discretion, may limit consideration to those schedule contractors that are small business concerns. This limitation is not applicable when buying supplies and/or services under other SINs as well as SIN 132-51. The limitation may only be used when at least three (3) small businesses that appear to offer services that will meet the agency's needs are available, if the order is estimated to exceed the micro-purchase threshold.

- (i) The request should be provided to at least three (3) contractors if the proposed order is estimated to exceed the micro-purchase threshold, but not exceed the maximum order threshold.
- (ii) For proposed orders exceeding the maximum order threshold, the request should be provided to additional contractors that offer services that will meet the ordering activity's needs.
- (iii) In addition, the request shall be provided to any contractor who specifically requests a copy of the request for the proposed order.
- (iv) Ordering activities should strive to minimize the contractors' costs associated with responding to requests for quotes for specific orders. Requests should be tailored to the minimum level necessary for adequate evaluation and selection for order placement. Oral presentations should be considered, when possible.

(3) Evaluate Responses and Select the Contractor to Receive the Order:

After responses have been evaluated against the factors identified in the request, the order should be placed with the schedule contractor that represents the best value. (See FAR 8.404)

- (b) The establishment of Federal Supply Schedule Blanket Purchase Agreements (BPAs) for recurring services is permitted when the procedures outlined herein are followed. All BPAs for services must define the services that may be ordered under the BPA, along with delivery or performance time frames, billing procedures, etc. The potential volume of orders under BPAs, regardless of the size of individual orders, may offer the ordering activity the opportunity to secure volume discounts. When establishing BPAs, ordering activities shall—

- (1) Inform contractors in the request (based on the ordering activity's requirement) if a single BPA or multiple BPAs will be established, and indicate the basis that will be used for selecting the contractors to be awarded the BPAs.
 - (i) SINGLE BPA: Generally, a single BPA should be established when the ordering activity can define the tasks to be ordered under the BPA and establish a firm-fixed price or ceiling price for

individual tasks or services to be ordered. When this occurs, authorized users may place the order directly under the established BPA when the need for service arises. The schedule contractor that represents the best value should be awarded the BPA. (See FAR 8.404)

- (ii) **MULTIPLE BPAs:** When the ordering activity determines multiple BPAs are needed to meet its requirements, the ordering activity should determine which contractors can meet any technical qualifications before establishing the BPAs. When establishing the BPAs, the procedures in (a)(2) above must be followed. The procedures at (a)(2) do not apply to orders issued under multiple BPAs. Authorized users must transmit the request for quote for an order to all BPA holders and then place the order with the Schedule contractor that represents the best value.
- (2) **Review BPAs Periodically:** Such reviews shall be conducted at least annually. The purpose of the review is to determine whether the BPA still represents the best value. (See FAR 8.404)
- (c) The ordering activity should give preference to small business concerns when two or more contractors can provide the services at the same firm-fixed price or ceiling price.
- (d) When the ordering activity's requirement involves both products as well as executive, administrative and/or professional, services, the ordering activity should total the prices for the products and the firm-fixed price for the services and select the contractor that represents the best value. (See FAR 8.404)
- (e) The ordering activity, at a minimum, should document orders by identifying the contractor from which the services were purchased, the services purchased, and the amount paid. If other than a firm-fixed price order is placed, such documentation should include the basis for the determination to use a labor-hour or time-and-materials order. For ordering activity requirements in excess of the micro-purchase threshold, the order file should document the evaluation of Schedule contractors' quotes that formed the basis for the selection of the contractor that received the order and the rationale for any trade-offs made in making the selection.

4. Order:

- a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
- b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

5. Performance of Services:

- a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
- b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
- c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
- d. Any Contractor travel required in the performance of IT/EC Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

6. Stop-Work Order (FAR 52.242-15) (AUG 1989):

- a. The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically

identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-

- (1) Cancel the stop-work order; or
 - (2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
- b. If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-
- (1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
 - (2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
- c. If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
- d. If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

7. Inspection of Services:

The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

8. Responsibilities of the Contractor:

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

9. Responsibilities of the Ordering Activity:

Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT/EC Services.

10. Independent Contractor:

All IT/EC Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

11. Organizational Conflicts of Interest:

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture

involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An "Organizational conflict of interest" exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor's or its affiliates' objectivity in performing contract work.

- b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

12. Invoices:

The Contractor, upon completion of the work ordered, shall submit invoices for IT/EC services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

13. Payments:

For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.232-7 (DEC 2002), (Alternate II – Feb 2002) (Deviation – May 2003)) applies to labor-hour orders placed under this contract.

14. Resumes:

Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

15. Incidental Support Costs:

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

16. Approval of Subcontracts:

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

COTS Products and Services Price List

The products and services described below are organized by vendor.

SPECIAL ITEM NUMBER 132-51 – IT Professional Services

FPDS Code D302	IT Systems Development Services
FPDS Code D306	IT Systems Analysis Services
FPDS Code D307	Automated Information Systems Design and Integration Services
FPDS Code D311	IT Data Conversion Services
FPDS Code D316	IT Network Management Services

Note: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

ISSI has been providing a broad range of high technology support to many U.S. Government customers such as Department of Defense (DoD), Department of Housing and Urban Development (HUD) and Department of Commerce (DoC). Other customers include: private and non-profit organizations.

Labor Category Descriptions

COMMERCIAL JOB TITLE: GSA001 - Administrative Support

Minimum/General Experience: 2 years experience in administrative position. Types and proofreads correspondence, reports, and documentation. Maintains filing system for department. Answers telephones, responds to routine questions/requests, greets visitors, schedules meetings, mail distribution, and makes travel arrangements

Functional Responsibility: Performs high level secretarial work under the general supervision of manager.

Minimum Education: High School Diploma

COMMERCIAL JOB TITLE: GSA002 - Computer Systems Security Specialist

Minimum/General Experience: A minimum of 4 years of progressively more difficult systems experience with 2 years experience within the last 3 years in software testing, installation, configuration and system problem resolution of computer operating systems. (b) Working knowledge of state of the art computer systems hardware applicable to the site supported, and software techniques and concepts including: servers, repeaters, bridges, routers, gateways, DECNet, TCP/IP and Ethernet. (c) Demonstrated ability in the analysis, design, development, testing and implementation of operating system and application solutions. (d) Demonstrated ability to determine network and application performance, evaluate and diagnose network performance issues and recommend and implement solutions for network performance improvement, in the operating system environment applicable to the site supported. (e) Working knowledge of operating system administration including: security, system and disk management, hardware maintenance and activity and performance monitoring. (f) Working knowledge of the basic principles of business systems information system and engineering disciplines. (g) Demonstrated ability to interface and coordinate efforts of technical and non-technical personnel involved in architecting operating system solutions for the operating system applicable to the site supported, to satisfy business information systems needs. (h)

Functional Responsibility: Responsible for all system administration and management including daily system operation, for the computer operating system applicable to the site supported. Must be adept at problem identification and resolution. Must be capable of documenting operating system problems and developing solutions. Experience in operating system and third party software testing, customization and installation. Minimum job qualifications are:

Minimum Education: A 4-year college degree in a business, computer science, information systems or related field or equivalent experience and certifications.

COMMERCIAL JOB TITLE: GSA003 – Consultant

Minimum/General Experience: A minimum of 6 years of progressively more difficult experience in developing, researching, testing, implementing and/or integrating new information technology to support existing business systems.

Functional Responsibility: Responsible for identifying new and emerging technology to support strategic planning initiatives required to meet business needs. Conducts assessments, evaluations, selections, site surveys, requirements analysis and definition, technology prototyping, and cost analyses related to information technology.

Minimum Education: A four year college degree or equivalent experience in information systems, business, computer science, or related field.

COMMERCIAL JOB TITLE: GSA004 - Cost Estimator

Minimum/General Experience: two years of project cost estimating experience is desirable.

Functional Responsibility: Estimates cost of software development activities based on contract scope, functional requirements, constraints, and design. Understanding of the Software Development Life-Cycle and program scheduling and estimating techniques required.

Minimum Education: A Bachelor's degree or equivalent training and experience in accounting, business or other related disciplines.

COMMERCIAL JOB TITLE: GSA005 - Data Entry Clerk

Minimum/General Experience: 2 years of experience related to keyboard based data entry both alpha and numeric data. Accuracy and speed are key factors in the overall performance of the duties. Functional Responsibility: Software industry exposure is a plus.

Functional Responsibility: Ordering and reporting, maintenance of security records, word processing, data transcription, filing and other miscellaneous duties.

Minimum Education: High school Diploma.

COMMERCIAL JOB TITLE: GSA006 - Data Management Specialist

Minimum/General Experience: Ten years of progressively more complex experience in areas of systems analysis/programming and data communications. Three years of experience with database management systems. Data Management Specialist directs systems analyses and feasibility studies. Assist customer in the planning and coordinating acquisition and implementation of systems. Analyzes proposed and existing system used in processing applications in terms of data communications and database management/structure, requirements and costs. Prepares studies and gives presentations on current data communications concepts. Prepares functional specifications for acquiring commercially available equipment. Consults with user management to ensure that problems are properly identified and solutions meet the requirements.

Functional Responsibility: Software and database analysis and design with an emphasis on data structures and reporting.

Minimum Education: A Bachelor of Science or equivalent training and experience in a recognized engineering, scientific, technical or business management discipline from an accredited college or university is required.

COMMERCIAL JOB TITLE: GSA007 - Documentation Specialist

Minimum/General Experience: Position requires analyses and writing skills of various degrees related to information resources. Possesses and applies comprehensive knowledge to provide technical review and expertise when required. Must possess and apply comprehensive knowledge of information system management. Able to plan and carry out complex written projects to completion. Possesses a minimum of five years of technical writing experience.

Functional Responsibility: Develops, writes, and edits material for reports, manuals, briefs, proposals, instruction books, catalogs, and related technical and administrative publications concerned with work methods and procedures, and installation, operations and enhancement of equipment. Interviews production and other personnel and reads

journals, reports and other material to become familiar with product technologies and production methods. Reviews manufacturer's and trade catalogs, drawings and other data relative to operation and enhancement of equipment. Organizes material and completes writing assignments with regard to order, clarity, conciseness, style, and terminology.

Minimum Education: A Bachelor of Science or equivalent training in a recognized Arts or business management or English Language discipline from an accredited college or university is required.

COMMERCIAL JOB TITLE: GSA008 - Engineering Manager

Minimum/General Experience: 3 -5 years of experience and extensive knowledge of engineering concepts, procedures and practices. Develops and refines new engineering techniques to enhance quality and productivity.

Functional Responsibility: Establishes performance and technical standards. Generates and approves project and testing specifications. Schedules and allocates work, provides advice and guidance, and resolves problems to meet performance and financial objectives. May lead or coordinate complex task/project teams.

Minimum Education: Bachelors degree or equivalent training in a technical discipline and 10+ years directly related work experience.

COMMERCIAL JOB TITLE: GSA009 - Functional Applications Specialist

Minimum/General Experience: 2 – 4 years of experience and Supports the integration of certain enterprise applications (such as PeopleSoft or Oracle). Responsible for identifying and documenting all specific functional requirements associated with implementing the application. Develops a comprehensive functional description of current and future system and process requirements through structured interviews, focus groups, documentation review and other data gathering techniques. Interfaces with technical personnel to identify specific system requirements and risks

Functional Responsibility: Works directly with agency/organization functional staff members to identify specific application views and data requirements to ensure that the final system incorporates required functionality.

Minimum Education: : Bachelors Degree or equivalent training in related functional area; 5+ years of directly related functional experience; 2+ years of specific application (such as PeopleSoft or Oracle) functional requirements development.

COMMERCIAL JOB TITLE: GSA010 - Help Desk Manager

Minimum/General Experience: Three to five years as a help desk specialist with progressive responsibility.

Functional Responsibility: Develops guidelines for response times, monitors the activity, balances the workload to ensure the service levels are above the pre-defined thresholds; analyzes the customer call and follow-up logs and provides feedback to the help desk staff; conducts periodic surveys to collect data on customer satisfaction. Be able to motivate and sustain the motivation levels for staff, provides them adequate relief to minimize burnout.

Minimum Education: Associates Degree or equivalent experience, help desk protocols and procedures training, product related training, and management training.

COMMERCIAL JOB TITLE: GSA011 - Help Desk Specialist

Minimum/General Experience: 5 to 8 years as a help desk specialist / manager with progressive responsibility.

Functional Responsibility: Follow guidelines for response times, review and respond to unanswered calls from the logs and documented problems that could not be solved; review and revise the problem solving methods based on the feedback from the customer satisfaction surveys and train the help desk staff with the special situations. Familiarity with help desk trouble shooting functions for complex problems and previous experience with software customer interaction is a requirement.

Minimum Education: High School Diploma, help desk protocols and procedures training, and product related technical training.

COMMERCIAL JOB TITLE: GSA012 - Internet / Intranet Engineer

Minimum/General Experience: 8 to 10 years experience that provides the required knowledge and skills.

Functional Responsibility: Analyze system requirements and develop design alternatives to satisfy those requirements. Provide technical leadership developing solutions for engineering studies and Internet Applications

Minimum Education: Bachelors degree in computer science (or equivalent training and/or certifications)

COMMERCIAL JOB TITLE: GSA013 - Jr. Hardware / Network Installation Technician

Minimum/General Experience: Two years of experience in network installation and troubleshooting network issues, understanding of the needs of an organization in network infrastructure

Functional Responsibility: Be familiar with a variety of operating systems including for networks. Be able to install a variety of LANs and trouble shoot the conflicts arising out of the incompatible software programs.

Minimum Education: Associate degree in Network communications and product training and/or certification required.

COMMERCIAL JOB TITLE: GSA014 - Junior Help Desk Specialist

Minimum/General Experience: Two years of experience as help desk specialist

Functional Responsibility: Follow guidelines for response times, log unanswered calls, document problems that could not be solved, review and revise the problem solving methods based on the feedback from the customer satisfaction surveys. Familiarity with help desk functions and previous experience with software customer interaction is a requirement.

Minimum Education: High School Diploma, help desk protocols and procedures training, and product related training.

COMMERCIAL JOB TITLE: GSA015 - Junior Programmer

Minimum/General Experience: One year of related experience, such as UNIX experience

Functional Responsibility: This is an entry level professional position, and requires the knowledge normally acquired through an undergraduate program in the related area of specialty (Engineering, Computer Science, Mathematics, Physics) and little or no related work experience or the equivalent combination of training and /or professional work experience that provides the required knowledge and skills. Knows fundamental concepts, practices and procedures.

Minimum Education: Bachelors degree in any discipline and programming training; certificate in programming technology or equivalent; or, High School Diploma with related education and training.

COMMERCIAL JOB TITLE: GSA016 - Junior Software Engineer

Minimum/General Experience: Recent College graduates and requires no experience.

Functional Responsibility: Junior Software Engineer analyzes information requirements. Evaluates analytically and systematically problems of work flows, organization, and planning and assists Senior Computer Systems Analyst and Computer Systems Analyst develop appropriate corrective action. Help develop plans for automated information systems from project inception to conclusion. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Under the supervision of a Senior Computer Analyst or a Computer Systems Analyst coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions.

Minimum Education: Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline.

COMMERCIAL JOB TITLE: GSA017 - Local Area Network Specialist

Minimum/General Experience: Five years of progressively more difficult systems experience with three years experience within the last four years in planning, architecting, developing, testing and implementing LAN business system configurations.

Functional Responsibility: Responsible for analyzing evaluating, and architecting cost effective LAN application solutions that make the most of resources and technology available in meeting business requirements. Must be adept at problem definition and resolution. Must be capable of documenting the business requirement and recommended solution. Experience in analysis, design, development, testing and implementation of LAN application solutions is required. Minimum job qualifications are:

Working knowledge of state of the art LAN systems hardware, software, techniques, and concepts such as OSI model, repeaters, bridges, routers, gateways, DECNet, TCP/IP, SDLC, SNMP protocols, IEEE Ethernet and Token-Ring, ANSI FDDI and EIA/TIA cabling standards.

Demonstrated ability in the analysis, design, development, testing and implementation of LAN application solutions.

Demonstrated ability to determine network and application performance, evaluate and diagnose network performance issues and recommend and implement solutions for network performance improvement.

Working knowledge of LAN administration including: security, system and disk management, hardware maintenance and activity and performance monitoring.

Working knowledge of the basic principles of business information systems and engineering disciplines.

Demonstrated ability to interface and coordinate efforts of technical and non-technical personnel involved in architecting LAN system solutions to satisfy business information systems needs.

Minimum Education: A four year college degree in business, computer science, information systems or related field; certificate from a technical school; or, equivalent job experience.

COMMERCIAL JOB TITLE: GSA018 - Network Specialist

Minimum/General Experience: Two year college with 5 years experience in networking, maintenance of firewall routers, and other hardware.

Functional Responsibility: Proposes and implements network policy to include Bastion Hosts, firewalls, LAN, Internet Applications (Gopher, Mosaic), modems, modem pools, communications servers, and WAN connectivity. Maintains firewall routers to include filtering, understanding of UNIX services and ports. Maintains applicable CERT and CIAC alerts and bulletins. Implements recommended security changes to include changing UNIX programs and applications, modifying firewalls and Bastion hosts.

Minimum Education: High School Diploma with computer certifications like A+, CCNA, computer science, information systems or related field, or equivalent 5 year job experience.

COMMERCIAL JOB TITLE: GSA019 - Program Administration Specialist

Minimum/General Experience: Four years experience, of which at least two years must be specialized. Specialized experience in general contract administration. Works with limited supervision and direction. Required to use judgment and initiative in problem solving.

Functional Responsibility: Assists in the preparation of management plans and reports. Coordinates schedules to facilitate completion of proposals, contract deliverables, task order review, briefing/presentations, and IPR preparation. Performs analysis, development, and review of program administrative operating procedures.

Minimum Education: Four year business management degree or High School Diploma with related training and experience equivalent to four year degree.

COMMERCIAL JOB TITLE: GSA020 - Program Manager

Minimum/General Experience: This position requires twelve years experience. Specialized experience includes: project development from inception to deployment, expertise in the management and control of funds and resources using complex reporting mechanisms, demonstrated capability in managing multi-task contracts and/or subcontracts

of various types and complexity. General experience includes increasing responsibilities in information systems design and/or management. Program Manager serves as the contractor's single contract manager, and shall be the contractor's authorized interface with the Government Contracting Officer (CO), the contract level Contracting Officer's Representative (COR), government management personnel and customer agency representatives.

Functional Responsibility: Responsible for formulating and enforcing work standards, assigning contractor schedules, reviewing work discrepancies, supervising contractor personnel and communicating policies, purposes, and goals of the organization to subordinates. Shall be responsible for the overall contract performance and shall not serve in any other capacity under this contract.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems Engineering, Business, Physical Science, or other technically related discipline. Project management training and six years of project management experience may be substituted for degree.

COMMERCIAL JOB TITLE: GSA021 - Programmer

Minimum/General Experience: Possesses a minimum of two years of experience with relevant operating systems and applications. Positions require experience with UNIX and MS-DOS applications.

Functional Responsibility: This position may also support the Database Administration functions. This position may be required to design and implement modifications or enhancements to forms, menus, and reports.

Minimum Education: an undergraduate program (or equivalent) in the related area of specialty (Engineering, Computer Science, Mathematics, Physics)

COMMERCIAL JOB TITLE: GSA022 - Project Manager

Minimum/General Experience: This position requires a minimum of eight years experience, of which at least five years includes project management through entire SDLC. Expertise in management and control of funds and resources using PMP standard practices. Manages multi-task contracts and/or subcontracts. General experience includes increasing responsibilities in information systems design and/or management.

Functional Responsibility: Project Manager serves as the project manager for small to medium projects. May management multiple tasks for a large, complex government program under direction of the Program Manager. Assists Program manager with the Government CO, COR, government management personnel and customer agency reporting requirements. Under Program Manager guidance, responsible for the overall management of the specific task order(s) and insuring that the technical solutions are implemented within budget in a timely manner.

Minimum Education: A Bachelor's degree or equivalent in Computer Science, Information Systems, Engineering, Business, Physical Science, or other technically related discipline.

COMMERCIAL JOB TITLE: GSA023 - Quality Assurance Manager

Minimum/General Experience: Eight years experience, of which at least five years are specialized. Specialized experience includes: Configuration Management, verification and validation, system/software testing and integration, software metrics and their application to system/software quality assessment. General experience includes increasing responsibilities in quality assurance, quality control, and team leader responsibilities.

Functional Responsibility: QA Manager establishes, maintains, and monitors processes for evaluating software and associated documentation. Defines quality metrics for the program or project. Determines resources required for quality control. Maintains the level of quality throughout the software life cycle. Conducts formal and informal reviews throughout the SDLC. Provides daily supervision and direction to support staff.

Minimum Education: A Bachelor's degree in Computer Science or equivalent, Information Systems, Engineering, Business, Physical Science, or other technically related discipline.

COMMERCIAL JOB TITLE: GSA024 - Quality Assurance Analyst

Minimum/General Experience: This position requires a minimum of six years experience, of which at least three years must be specialized. Specialized experience includes: analysis and design of business applications on complex systems, and data base management; use of modern programming languages; use of industry recognized quality assurance methods for software testing for quality improvement. Assesses and monitors software quality throughout

the SDLC using industry recognized tools and techniques; and, has worked independently or under general direction on complex tasks through all phases of SDLC.

Functional Responsibility: Monitors quality assurance metrics and processes throughout the SDLC. Reviews work products for correctness, adherence to the design concept, and adherence to client standards. Reviews of program documentation to assure compliance with government standards/requirements. Monitors progress in accordance with schedules. Coordinates problem resolutions with the Project Manager and/or Quality Assurance Manager to ensure user satisfaction. Recommends systems release and acceptance based on quality metrics.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, Physical Science, or other technically related discipline.

COMMERCIAL JOB TITLE: GSA025 - Senior Computer Systems Security Analyst

Minimum/General Experience: A minimum of 6 years of progressively more difficult systems experience with 4 years experience within the last 3 years in systems security assessment and remediation.

Functional Responsibility: Responsible for defining, documenting, monitoring, and enforcing network and systems security standards. Must be adept at problem identification and resolution. Must be capable of documenting network, operating system, database, and application security issues and developing solutions. Experience in operating system and third party software testing, customization and installation. Working knowledge of operating system administration including: security, system and disk management, hardware maintenance and activity and performance monitoring.

Minimum Education: BS/BA (or equiv experience) with focus on computer systems security.

COMMERCIAL JOB TITLE: GSA026- Senior Consultant

Minimum/General Experience: This position requires a minimum of eight years experience, of which at least six years must be specialized.

Functional Responsibility: Specialized experience includes: systems requirements or developing functional requirements for complex integrated information systems business processes and/or programs. Must demonstrate the ability to work independently. Senior Consultant analyzes user needs to determine functional and cross-functional requirements. Performs functional allocation to identify required tasks and their interrelationships. Identifies resources required for each task. Provides daily supervision and direction to support staff.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline.

COMMERCIAL JOB TITLE: GSA027- Senior Database Management Specialist

Minimum/General Experience: A minimum of five years experience in database design including normalization and denormalization of data structures. Demonstrated understanding of database optimization techniques. Experience with multiple DBMS and expert in SQL programming.

Functional Responsibility: Designs relational and hierarchical databases. Develops data dictionaries. Creates indexing, both primary and secondary keys. Provides performance tuning and database administration. Manages disk space. Provides custom programming for stored procedures, triggers, complicated queries and SQL statements to create views, tables etc,

Minimum Education: Bachelor's or advanced degree from an accredited institution and at least five years experience in managing the development of large database systems that incorporate database design, development, fine tuning and monitoring.

COMMERCIAL JOB TITLE: GSA028- Senior Programmer

Minimum/General Experience: Five years experience developing large automated systems and systems integrations using modern programming languages and methodologies. Five additional years experience in a related field may be substituted for the educational requirement.

Functional Responsibility: Develops documentation and coding standards. Develops standards-compliant software utilizing industry-leading operating systems, languages, protocols and relational databases. Designs and develops

user interface, business logic, validations, and data access methods for integration into medium to large software systems.

Minimum Education: Bachelor's or advanced degree from an accredited institution or equivalent training and experience.

COMMERCIAL JOB TITLE: GSA029 - Senior Software Engineer

Minimum/General Experience: Eight years experience in software development with at least six years must be specialized.

Functional Responsibility: Specialized experience includes: analysis and design of business applications on complex systems. Knowledge of current software design methodologies and demonstrated ability to formulate specifications for computer programmers to use in coding, testing, and debugging of computer programs. General experience includes increasing responsibilities in assignments of a technical nature. Proven ability to work independently on complex application problems. Senior Software Engineer provides technical and administrative direction for personnel performing software development tasks, including the review of work products for correctness, adherence to the design concept and to user standards, and for progress in accordance with schedules. Coordinates with the Project and/or Program Manager to ensure problem solution and user satisfaction. Makes recommendations, if needed, for approval of major systems installations. Prepares milestone status reports and deliveries/presentations on the system concept to colleagues, subordinates, and end user representatives. Provides daily supervision and direction to support staff.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline, or equivalent training and experience.

COMMERCIAL JOB TITLE: GSA030 - Systems Analyst/Programmer

Minimum/General Experience: This position requires a minimum of eight years experience in systems analysis, of which at least five years must be specialized.

Functional Responsibility: Specialized experience includes: supervision of system engineers, familiar with a network topologies and configurations, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. At least one certification in network operating systems is required. Establishes system information requirements using analysis of the information engineer(s) in the development of enterprise-wide or large scale information systems. Designs architecture to include the software, hardware, and communications to support the total systems requirements.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline or equivalent training and experience.

COMMERCIAL JOB TITLE: GSA031 - Senior Technical Writer/Editor

Minimum/General Experience: A minimum of 6+ years of relevant experience as technical writer

Functional Responsibility: Prepare, disseminate and provide for the orderly safeguard of technical documents. Proficiency in writing technical documents. Also Provide support in the area of technical editing by reviewing the grammar, writing styles and syntax of quality materials and technical reports. Provide support by assisting in rewrites of quality materials and technical reports.

Minimum Education: A Bachelor's degree in Language Arts, Information Systems, or other related discipline.

COMMERCIAL JOB TITLE: GSA032 - Senior Training Specialist

Minimum/General Experience: ten years experience (or an equivalent combination of training and professional work experience that provides the required knowledge and skills.) Although education and experience are key factors in determining an individual's qualifications, emphasis must be placed on actual competencies to perform all aspects of the job at each level.

Functional Responsibility: Able to train the trainers offering training sessions. Able to conduct complex courses from start to completion. Excellent communications and problem solving skills. Performs system analysis for highly complex classes. Recommends most effective method to utilize equipment, where appropriate. Under general

program direction, independently performs training within the field of expertise. May supervise the work of lower level trainers. Errors in work or judgment could significantly impact the client relationship and/or the usefulness and effectiveness of the system.

Minimum Education: Bachelor's degree or equivalent training and experience.

COMMERCIAL JOB TITLE: GSA033 - Software Engineer

Minimum/General Experience: This position requires a minimum of five years experience as a software engineer, of which at least three years must be specialized. Analyzes and develops computer software possessing a wide range of capabilities, including numerous engineering, business, and records management functions.

Functional Responsibility: Develops plans for automated information systems from project inception to conclusion. Analyzes user interfaces, maintains hardware and software performance tuning, analyzes workload and computer usage, maintains interfaces with outside systems, analyzes down times, analyzes proposed system modifications, upgrades and new COTS. Analyzes the problem and the information to be processed. Defines the problem, and develops system requirements and program specifications, from which programmers prepare detailed flow charts, programs, and tests. Coordinates closely with programmers to ensure proper implementation of program and system specifications. Develops, in conjunction with functional users, system alternative solutions. Software Engineer's specialized experience includes: analysis and design of business applications on complex systems for large scale computers, including three years experience in data base management concepts, use of programming languages such as Ada, COBOL, 4GL, and/or DBMS. Knowledge of current storage and retrieval methods, one year of systems analysis experience designing technical applications on computer systems and demonstrated ability to formulate specifications for computer programmers to use in coding, testing, and debugging of computer programs. General experience includes increasing responsibilities in information systems design and management. Must demonstrate the ability to work independently or under only general direction on requirements that are moderately complex to analyze, plan, program, and implement.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline, or equivalent training and experience

COMMERCIAL JOB TITLE: GSA034 - Software Installation Specialist

Minimum/General Experience: Five years of experience in installation and configuration of operating systems, database software, and large scale applications software products.

Functional Responsibility: Installs operating systems, DBMS, ERP, and other software products on PCs, Servers, and LANs. Performs troubleshooting and resolves conflicts arising out from software and environmental incompatibility.

Minimum Education: B.S, degree in arts, communications, or computer science is required, or equivalent technical training and experience.

COMMERCIAL JOB TITLE: GSA035 - System Administrator

Minimum/General Experience: A minimum of 4 years of progressively more difficult systems experience with 2 years experience within the last 3 years in software testing, installation, configuration and system problem resolution of computer operating systems.

Functional Responsibility: Responsible for all system administration and management including daily system operation, for the computer operating system applicable to the site supported. Must be adept at problem identification and resolution. Must be capable of documenting operating system problems and developing solutions. Experience in operating system and third party software testing, customization and installation. Minimum job qualifications are:

Working knowledge of state of the art computer systems hardware applicable to the site supported, and software techniques and concepts including: servers, repeaters, bridges, routers, gateways, DECNet, TCP/IP and Ethernet.

Demonstrated ability in the analysis, design, development, testing and implementation of operating system and application solutions.

Demonstrated ability to determine network and application performance, evaluate and diagnose network performance issues and recommend and implement solutions for network performance improvement, in the operating system environment applicable to the site supported.

Working knowledge of operating system administration including: security, system and disk management, hardware maintenance and activity and performance monitoring.

Working knowledge of the basic principles of business systems information system and engineering disciplines.

Demonstrated ability to interface and coordinate efforts of technical and non-technical personnel involved in architecting operating system solutions for the operating system applicable to the site supported, to satisfy business information systems needs.

Minimum Education: A four-year college degree in a business, computer science, information systems or related field or equivalent technical training and experience.

COMMERCIAL JOB TITLE: GSA036 - Systems Engineer

Minimum/General Experience: Four years experience, of which at least two years must be specialized in systems engineering. At least one certification in network operating systems is required.

Functional Responsibility: Systems Engineer establishes system information requirements using analysis of the information engineer(s) in the design and development of enterprise-wide or large scale information systems. Designs architecture to include the software, hardware, and communications to support the total requirements as well as provide for present and future cross functional requirements and interfaces. Evaluates analytical and systematical problems of work corrective action.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline.

COMMERCIAL JOB TITLE: GSA037 - Technical Writer/Editor

Minimum/General Experience: 3+ years of relevant experience as technical writer in a software development company.

Functional Responsibility: Prepare, disseminate and provide for the orderly safeguard of technical documents. Proficiency in writing technical documents.. Also Provide support in the area of technical editing by reviewing the grammar, writing styles and syntax of quality materials and technical reports. Provide support by assisting in rewrites of quality materials and technical reports.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline.

COMMERCIAL JOB TITLE: GSA038 - Training Specialist

Minimum/General Experience: Five years experience (or an equivalent combination of training and professional work experience that provides the required knowledge and skills.) Although education and experience are key factors in determining an individual's qualifications, emphasis must be placed on actual competencies to perform all aspects of the job at each level.

Functional Responsibility: Conducts technical training courses from start to completion. Evaluates student progress and coaches students. Has excellent communications and problem solving skills. Performs training analyses and designs training. Recommends most effective training modalities for the subject matter. Under general direction, independently performs training within the field of expertise. May supervise the work of lower level trainers. Errors in work or judgment could significantly impact the client relationship and/or the usefulness and effectiveness of the system.

Minimum Education: A Bachelor's degree in Computer Science, Information Systems, Engineering, Business, or other related discipline.

COMMERCIAL JOB TITLE: GSA039 - Web Designer

Minimum/General Experience: Two years of web design and maintenance is required for this position using Web Design tools like Flash, Html.

Functional Responsibility: Any e-commerce experience coupled with EDI is a plus.

Minimum Education: A B.S. in Computer Science is preferred but in other disciplines will also be accepted in special cases.

COMMERCIAL JOB TITLE: ISSI-STS-PM SumTotal Project Manager

Minimum/General Experience: Two years experience managing SumTotal implementation projects. Three years experience configuring SumTotal Learning Management System, Learning Content Management System, and Performance Management implementations.

Functional Responsibility: The SumTotal Project Manager will be responsible for managing the implementation of SumTotal products for strategic customer accounts. The Project Manager will be responsible for project planning, budgeting, scheduling and reporting. Responsibilities include:

- Conduct planning and discovery during pre-sales sessions
- Develop and present statements of work
- Develop, publish and maintain project schedules
- Lead project team meetings for regular communication and to address special issues
- Develop project metrics
- Communicate with Director of Services on status and issues
- Monitor and ensure costs remain within budget

Minimum Education: BS/BA in business or instructional systems, or equivalent training and experience.

COMMERCIAL JOB TITLE: ISSI-STS-BS SumTotal Business Services

Minimum/General Experience: Six years experience configuring and managing SumTotal implementation projects.

Functional Responsibility: Provides expert SumTotal product consulting services. Provides Business Consulting Services including: business process and Performance Management workflow consulting. Identifies and documents new business requirements that lead to custom and configured solutions.

Minimum Education: BS/BA in business or instructional systems, or equivalent training and experience.

COMMERCIAL JOB TITLE: ISSI-STS-IS SumTotal Implementation Services

Minimum/General Experience: Three years experience configuring SumTotal implementation projects.

Functional Responsibility: The Implementation Services consultant: Conducts configuration workshops and facilitates the implementation of configuration decisions.

Minimum Education: BS/BA in business or instructional systems, or equivalent training and experience.

IBM Participate Technical Workshop- 3 day on site workshop for technical personnel responsible for site modifications, e-mail integration, workflow design and implementation.	OS-PS-CS-10	#ISSI-PS-CS-10	\$7,500	6,448.00

SPECIAL ITEM NUMBER 132-51 – IT Professional Services

Labor Category Descriptions

COMMERCIAL JOB TITLE: OTS001 IBM Evolution Consultant

Minimum/General Experience: At least two years' experience designing technology based training including web based training and/or computer based training; background in instructional design, multi-media design and development and training. Consulting, project management, knowledge of web based technologies such as HTML, Scripting and strong customer relationship skills also required.

Functional Responsibility: Functional Responsibility: Consultants will assist customers with the implementation of intended use of product, provide mentoring, gather requirements, determine technical needs, review project requirements and refine implementation. Responsibilities include the following:

- Conduct planning and discovery to provide new customers with consulting on the intended uses of the product within their enterprise
- Workflow design and implementation
- Metadata strategy design and implementation
- User Interface customization to fit customer requirements

Minimum Education: Bachelor's Degree Instructional Design

COMMERCIAL JOB TITLE: OTS002 IBM Evolution Project Manager

Minimum/General Experience: Three years' experience managing projects on major accounts and five years consulting experience. Experience with instructional design and web-based product. Strong customer relationship skills are a must.

Functional Responsibility: The Project Manager will be responsible for managing the implementation of IBM's products for strategic customer accounts. The Project Manager will be responsible for project planning, budgeting, scheduling and reporting. Responsibilities include:

- Conduct planning and discovery during pre-sales sessions
- Develop and present statements of work
- Develop, publish and maintain project schedules
- Lead project team meetings for regular communication and to address special issues
- Develop project metrics
- Communicate with Director of Services on status and issues
- Monitor and ensure costs remain within budget

Minimum Education: Bachelor's Degree (Business or Instructional Design preferred)

COMMERCIAL JOB TITLE: OTS003 IBM Participate Developer

Minimum/General Experience: Three years' experience managing projects on major accounts and five years consulting experience. Experience with instructional design and web-based product. Strong customer relationship skills are a must.

Functional Responsibility: The Project Manager will be responsible for managing the implementation of IBM's products for strategic customer accounts. The Project Manager will be responsible for project planning, budgeting, scheduling and reporting. Responsibilities include:

- Conduct planning and discovery during pre-sales sessions
- Develop and present statements of work
- Develop, publish and maintain project schedules
- Lead project team meetings for regular communication and to address special issues
- Develop project metrics
- Communicate with Director of Services on status and issues
- Monitor and ensure costs remain within budget

Minimum Education: Bachelor Degree (Business or Instructional Design preferred)

SumTotal Systems Inc. IT Products and Services

Prices for SumTotal products and services increase by 7% per year after the 2010 base year for multi-year task orders.

SPECIAL ITEM NUMBER 132-32 Term Software License

Hosted Subscription (HS), Term Software licenses, and SaaS licenses are renewable annually and include maintenance and support. The minimum dollar amount for new orders for Talent Management™ products is \$18,750. Any combination of TM products may be included. The types of licenses are:

- **Named Users** - individual users' records in the database that have an assigned active user license.
- **Training Records** - users' records in the database that are for record-keeping purposes, but are not assigned an active user license.
- **Registrations** – these represent individual users accessing the LMS to take specific training. Each training registration is chargeable.

Hosted Subscription Software Products

Hosted Subscription Software is a form of Term License. The Hosted Subscription is hosted by ISSI or SumTotal and includes the annual term license cost and maintenance and support. Host requires dedicated servers which are priced separately. The license must be renewed annually.

SPECIAL ITEM NUMBER 132-33 Permanent Software License

Permanent software licenses are licensed to a specific government organization and are not transferable. The types of licenses are:

- **Named Users** - individual users' records in the database that have an assigned active user license.
- **Training Records** - users' records in the database that are for record-keeping purposes, but are not assigned an active user license.
- **Registrations** – these represent individual users accessing the LMS to take specific training. Each training registration is chargeable.

SPECIAL ITEM NUMBER 132-34 – Maintenance Services

Maintenance and Support Services include annual services

Maintenance and support services are generally based on a percentage of the contract price of the licensed software, with annual adjustment for inflation. Each manufacturer will have its own guideline for calculating maintenance costs. Most manufacturers require that maintenance and support services be purchased with the first license year and be renewed annually thereafter. The actual cost of annual software maintenance and support may vary from that provided in the charts below.

Analytics Maintenance & Support
